

1. Your Code file(s)

See GitHub repo <https://github.com/simontv1998/HW3-NoSQL/blob/main/upload.py> for a file named upload.py

2. Screenshot of the query you use on your local machine to pull the data from your Dynamo DB.

```
# search for an item
response = table.get_item(
    Key = {
        'PartitionKey': '2',
        'RowKey': '-2'
    }
)
item = response['Item']
print(item)
```

3. Screenshot of the results of the above query from your local machine's terminal.
